Fields of Special Competence:

Dr Bozovic-Stamenovic has particular interest in theory of design and focuses her research on foreseen changes in the broad area of healthy spaces. She is teaching Design Studio on graduate level, lecturing on “Space and Health” and supervising graduate dissertation, Master and PhD candidates. She published two books, a number of papers and participated in numerous National and International Conferences, Workshops and Seminars.

Other field of interest:

Dr Bozovic-Stamenovic interests in design (team with D. Stamenovic) resulted in numerous design proposals and several built works awarded and published for their excellence. She won major architectural prizes in former Yugoslavia including the October Salon of Arts Award and Salon of Architecture Awards. The team won over fifteen awards for international and national competition projects. Built works and projects were presented in over thirty exhibitions including the prestigious International Exhibition of Architecture “The Biennale of Venice”, Italy (1985, 2002)
