Annual report 2008

EXPEDITIO is a non-governmental and non-profit association whose mission is to encourage sustainable spatial development in Montenegro and the region through activity in the fields of architecture, cultural heritage, urban planning and through projects that encourage overall development of the civil sector. Expeditio was established in 1997. It is seated in Kotor, Montenegro. Expeditio is a member of Europa Nostra.

Introduction

Srećni praznici...

Happy Holidays...

EXPEDITIO

2009

Dear friends,

In 2009 Expeditio will be celebrating its 12th anniversary. All these past years, including 2008, have been a great challenge for our organization.

During 2008 we conducted some projects that had started in 2007 and also wrote proposals for new projects. Some of these proposals were approved during 2008, some were not that successful, and for some we are still waiting for the results. An increasing number of our projects is focusing on energy efficiency in construction, although we continue dealing with cultural heritage, spatial planning and sustainable development in general.

During 2008 we established some new partnerships and presented our organization at various events taking place in the countries of the region, EU or worldwide. We attended trainings and other educational programmes which, in our opinion, will be useful for us in the realization of new projects from the EU funds. Because of that, in the coming period we are planning to intensify our contacts with the organizations from the region which deal with the similar topics as we do.

During 2008 we enhanced our cooperation with the state institutions because we believed that in that way our activities would have better results. However, through that cooperation we also wanted to assist these institutions in fulfilling their obligations in the process of EU integration. One of the very important activities within that cooperation is our continued membership in the National Council for Sustainable Development as an important advisory body of the Government of Montenegro.

In 2009 we want to concentrate on our organization's capacity strengthening and we also want to ensure as effective engagement as possible in our activities of our numerous collaborators and members. We are aware of the great human potential existing in the region and we would like to contribute that it is used in a way which brings about positive changes when the space protection is concerned.

We want to extend our cordial thanks to all those who follow our activities and support us in various ways – through membership in our organization, by cooperating with us, promoting our activities or providing their financial support.

Best regards! EXPEDITIO team

Atmosphere from the round table

Catalogue of the EU Sustainable Energy Week 2008 in the framework of which the round table was held in Podgorica.

ROUND TABLE: ENERGY EFFICIENCY IN THE CONSTRUCTION SECTOR IN MONTENEGRO, January 2008

At the end of January 2008, Expeditio organized, in cooperation with Montenegro Business Alliance from Podgorica, a round table "Increasing Energy Efficiency in the Construction Sector in Montenegro" for representatives of public, business and NGO sectors. The round table was part of the project "Energy Days in Montenegro" conducted within "Sustainable Energy Europe 2005-08" campaign that had been launched by the European Commission. www.sustenergy.org

Our partners in the project were Montenegro Business Alliance from Podgorica, Ministry for Economic Development / Sector for Energy Efficiency, NGO Natura and Radio Ozon from Kolašin. Our collaborators were OD-DO Architects from Belgrade.

The project "Energy Days in Montenegro" was funded within the SECTOR programme of the Regional Environmental Centre for Central and Eastern Europe (REC) www.rec.org. The programme was financed by the Swedish International Development Cooperation Agency (SIDA).

PRINCIPI ODRŽIVOSTI U GRAĐENJU

pripremio: Nataša Ilić, 00-00

- ISCRPLJENI I UGROŽENI PRIRODNI RESURSI
- NARUŠENI PRIRODNI PEJZAŽI USLJED EKSPLOATACIJE ODREĐENIH RESURSA (KAMENOLOMI, POSIJEČENE / A NEOBNOVLJIVE) ŠUME, RUDNIČKE ISKOPINE...
- STVARANJE OTPADA
- PROIZVODNJA MATERIJALA NARUŠAVA PRIRODNE EKOSISTEME

- NEFUNKCIONALNA TEHNOLOGIJA GRAĐENJA DANAS, OBJEKAT SE RAŠČLANJUJE NA ODVOJENE SISTEME (ARHITEKTONSKO-GRAĐEVINSKI SISTEM, SISTEMI INSTALACIJA, ENTERIJER ...) - OBJEKAT SE MORA POSMATRATI KAO JEDAN ORGANIZAM, NEOPHODNO JE INTEGRALNO PROJEKTOVANJE
- NISKA EFIKASNOST SISTEMA INSTALACIJA - VELIKA POTROŠNJA VODE, RASIPANJE TOPLOTE...
- NISKA JE UPOTREBLJIVOST MATERIJALA NAKON RUŠENJA OBJEKTA
- FORMA NEINTELEKTUALNA I NEPOVEZANA SA CJELOKUPNIM SISTEMOM OBJEKTA
- NEISKORIŠĆENE PREDNOSTI PREFABRIKOVANE I INDUSTRIJSKE GRADNJE

- KORISTITI MATERIJALE IZ OBNOVLJIVIH PRIRODNIH IZVORA
- KORISTITI MATERIJALE KOJI SE RECIKLAŽOM MOGU PONOVO PRIMIJENITI
- KORISTITI BIORAZGRADIVE MATERIJALE / OD PRIRODNIH DO NOVIH (BIOPLASTIKA, BIOPOLIMERI)
- KORISTITI MATERIJALE KOJI SU DOSTUPNI NA LOKACIJI GRAĐENJA (lokalni materijali)
- KORISTITI MATERIJALE ČIJA PROIZVODNJA NE IZAZIVA ZAGAĐENJE
- KORISTITI RECIKLIRANE MATERIJALE
- POSTIĆI MAKSIMALNU ISKORIŠĆENOST MATERIJALA - BEZ OTPADA
- KORISTITI MATERIJALE ČIJA PROIZVODNJA I TRANSPORT TROŠE MANJE ENERGIJE
- SMANJITI KOLIČINU UPOTREBLJENOG MATERIJALA
- KORISTITI MATERIJALE KOJI SU LAKO RAZDOJVIVI

- POSTIĆI ODGOVARAJUĆI NIVO KONSTRUKCIJE I GRAĐENJA U ODNOSU NA LOKALNE EKONOMSKE, SOCIJALNE I POLITIČKE USLOVE
- TEŽITI POSTIZANJU RASKLOPIH, PONOVO UPOTREBLJIVIH, FLEKSIBILNIH KONSTRUKTIVNIH SISTEMA
- TEŽITI POSTIZANJU SISTEMA GRADNJE KOJI DOZVOLJAVAJU LAKO RAŠČLANJIVANJE MATERIJALA U SVRHU PONOVLJE UPOTREBE I RECIKLAŽE
- SISTEMI INSTALACIJA KAO INTEGRISANI DIO STRUKTURE OBJEKTA
- INTELEKTUALNO UPRAVLJANJE SVIM SISTEMIMA U OBJEKTU
- FORMA OBJEKTA NA OSNOVAMA PRIRODNIH SISTEMA
- BIOMIMIKRIJA
- TEŽITI POSTIZANJU "GREEN DESIGN"-A - ZELENI KROVOVI, ZELENE FASADE ...

MATERIJALIZACIJA

TEHNOLOGIJA GRAĐENJA

- NEFUNKCIONALNOST OBJEKTA I ZANEMARENA POTREBA KORISNIKA
- NEADEKVATNO ULAGANJE U ODNOSU NA TRAJANJE UPOTREBE OBJEKTA
- NEPLANSKO GRAĐENJE NA LOKACIJAMA BEZ RIJEŠENIH OSNOVNIH TRANSPORTNIH I KOMUNALNIH USLUGA
- ISKORIŠĆAVANJE RADNE SNAGE

KREATIVNOST
VIZIJA
ESTETIKA

SOCIJALNI ASPEKT

- POŠTOVATI STVARNE POTREBE KORISNIKA
- DEFINISATI SVRHU I TRAJANJE OBJEKTA
- OBRAZOVATI SVE UKLJUČENE U PROCES GRAĐENJA: ARHITEKTE, INŽINJERE, URBANISTE, KORISNIKE, RADNU SNAGU...
- ANGAŽOVATI LOKALNU PRIVREDU / PODSTICATI ZAPOSILJAVANJE
- GRADITI PO PLANOVIMA
- OPRAVDATI INVESTITCIJU

- ISCRPLJENI FOSILNI IZVORI ENERGIJE
- ZAGAĐENJE
- GLOBALNO OTOPLIJAVANJE
- NARUŠAVANJE PRIRODNIH EKOSISTEMA
- NEISKORIŠĆENOST OGROMNOG POTENCIJALA IZVORA ENERGIJE SUNCA, VJETRA, VODE ...

- GRIJANJE
- HLAĐENJE
- VENTILACIJA
- OSVJETLJENJE
- ZAGRIJAVANJE VODE
- RAD APARATA
- VODA

ENERGIJA

- KORISTITI ENERGIJU IZ OBNOVLJIVIH IZVORA: SUNCE, VJETAR, VODA...
- PRIMJENJIVATI PASIVNE I INTELEKTIVNE PRINCIPE U GRAĐENJU
- TEŽITI FORMI KOJA ODRAŽAVA ENERGETSKE POTREBE ORGANIZMA/OBJEKTA

MJESTO

- POŠTOVATI USLOVE LOKACIJE / PRIRODNO I URBANO OKRUŽENJE
- POŠTOVATI DUH MJESTA / KULTURNO NASLIJEDE
- KORISTITI PREDNOSTI TERENA
- MINIMALNO ZAUMIJATI TLO
- PRATITI OSOBINE KLIMATSKOG PODNEBLJA
- POŠTOVATI ORIJENTACIJU U ODNOSU NA SUNCE, VJETAR, VODU...

PASIVNI SISTEMI / PRINCIPI

- > TOPLOTNA IZOLACIJA
- > MASIVNOST ZIDOVA
- > UKOPAVANJE U TEREN
- > ORIJENTACIJA / SUNCE I VJETAR
- > STAKLENIK
- > DVOSLOJNA / KLIMATSKA FASADA
- > TOPLOTNO SKLADIŠTE / VAZDUH / ŠLJUNAK / KAMEN / VODA
- > MEHANIČKA PRIRODNA VENTILACIJA
- > SISTEM "KUĆA U KUĆI"
- > SOLARNI KOLEKTORI / VODA
- > KORIŠĆENJE KIŠNICE
- > RECIKLAŽA OTPADNE VODE

AKTIVNI SISTEMI / PRINCIPI

- > FOTONAPONSKE PANELE
- > TOPLLOTNE PUMPE
- > VJETRENJAČE

- > FARMA VJETRENJAČA
- > SOLARNA CENTRALA
- > HYDROCENTRALA
- > IZVOR TOPLI VODE
- > ELEKTRANE NA BIOMASU

- NARUŠAVANJE PRIRODNOG PEJZAŽA
- NARUŠAVANJE KULTURNOG PEJZAŽA
- GRAĐENJE NEPRIMJERENO KLIMATSKOM PODNEBLJU
- NEADEKVATNA UPOTREBA MATERIJALA I NEADEKVATNA ORIJENTACIJA (UZROKUJU VEĆU POTROŠNJU ENERGIJE I UTIČU NA LOŠ KOMFOR)

PROMOTIONAL LEAFLET: ENERGY DAYS IN MONTENEGRO, January 2008

This was a promotional leaflet of the project "Energy Days in Montenegro". The project was part of the "Sustainable Energy Europe 2005-08" campaign that had been launched by the European Commission. The leaflet contains information about the principles of sustainable construction, useful links, and details of the project.

The overall aim of the project was to increase energy usage efficiency, especially in construction, in order to contribute to the quality of life of citizens of Montenegro.

MEETING of the SEE HERITAGE NETWORK in KOTOR, February 2008

Non-governmental organizations EXPEDITIO and NOTAR, Center for Preservation and Promotion of Kotor Documentary Heritage, on behalf of the SEE (South East European) Heritage network, organized a SEE Heritage network Meeting & Workshop "Devastation of Cultural Heritage" in Kotor, on 8-10 February 2008. The project was realized within the East East Program: Partnership Beyond Borders of the Open Society Institute, through the support of the Foundation Open Society Institute – Representative Office Montenegro.

The SEE Heritage network is a network of cultural heritage NGOs working in the South-East European region. The Network aims to raise awareness about different issues and problems concerning cultural heritage in the region. The Network's members are NGOs from Albania, Bosnia and Herzegovina, Croatia, Kosovo, Macedonia, Montenegro and Serbia.

During the meeting a joint APPEAL to stop the indifference towards the devastation of SEE heritage was drawn up and launched.

APPEAL: STOP THE INDIFFERENCE TOWARDS THE DEVASTATION OF SEE HERITAGE

BIOKLIMATSKA ARHITEKTURA ...➤ KAKO GRADITI ENERGETSKI EFIKASNE KUĆE?

 EXPEDITIO Vas poziva na predavanje: "Bioklimatska arhitektura – kako graditi energetske efikasne kuće". Predavanje će održati Dr Mila Pucar, arh. iz Instituta za arhitekturu i urbanizam Srbije, autorka knjige "Bioklimatska arhitektura - zastakljeni prostori i pasivni solarni sistemi". Predavanje će se održati u Podgorici, knjižara KARVER, 20. februara 2008 (srijeda) u 19:00. Predavanje je dio projekta "Dani energije u Crnoj Gori" koji se realizuje u okviru kampanje evropske komisije "Sustainable Energy Europe 2005-08". Projekat se implementira sredstvima SECTOR programa Regionalnog centra za životnu sredinu za Centralnu i Istočnu Evropu (REC). Program finansira Švedska agencija za međunarodni razvoj i saradnju (SIDA).

From the lecture at Karver Bookstore in Podgorica

BIOCLIMATIC ARCHITECTURE – HOW TO BUILD ENERGY EFFICIENT HOUSES, February 2008, Podgorica

A lecture entitled "Bioclimatic Architecture – How to Build Energy Efficient Houses" was delivered by the architect Dr. Mila Pucar, currently employed at the Institute of Architecture and Urban Planning of Serbia and the author of the book "Bioclimatic Architecture – Glazed Spaces and Passive Solar Systems"

The lecture was part of the project "Energy Days in Montenegro" conducted within "Sustainable Energy Europe 2005-08" campaign that had been launched by the European Commission.

The project "Energy Days in Montenegro" was funded within the SECTOR programme of the Regional Environmental Centre for Central and Eastern Europe (REC) www.rec.org. The programme was financed by the Swedish International Development Cooperation Agency (SIDA).

MAP OF CULTURAL AND NATURAL HERITAGE OF BOKA KOTORSKA, March 2008

The Map of Cultural and Natural Heritage of Boka Kotorska shows the whole area of the Boka Kotorska Bay and lists the most important cultural and natural monuments on the territories of the three municipalities in Boka Kotorska – Kotor, Tivat and Herceg Novi.

The map was one of the three pilot-projects that were realized within a larger project “INTER-MUNICIPAL COOPERATION IN MONTENEGRO; promoting inter-municipal initiatives in the sub-region of Kotor Bay”. The project was conducted by EXPEDITIO in cooperation with SNV Montenegro – Netherlands Development Agency and the municipalities of Kotor, Tivat and Herceg Novi and it was financed by the Royal Embassy of Netherlands in Belgrade.

The map is two-sided. Side one shows the map of Boka Kotorska with the most important cultural and natural monuments, while side two depicts the most important areas. The drawings of the most important cultural monuments and basic information about them are inset on the map. The author of the map is the architect Aleksandar Stojanović.

POVEĆAJMO ENERGETSKU EFIKASNOST U CRNOJ GORI

PROMOTIONAL PANELS FOR LOCAL SELF-GOVERNMENTS: INCREASING ENERGY EFFICIENCY IN MONTENEGRO, March 2008

Within the project “Energy Days in Montenegro” which was part of the European Commission’s “Sustainable Energy Europe 2005-08” campaign, promotional panels “Increasing Energy Efficiency in Montenegro” were produced.

The panels were intended for the municipalities in Montenegro so that they can place them in prominent places clearly visible to the public in their Civic Bureaus or Town Halls, with the aim of increasing public awareness of energy efficiency and energy saving. The panels were delivered to all local self-governments and other institutions dealing with sustainable development.

COMPATIBILITY OF LAWS IN THE FIELD OF ENERGY EFFICIENCY IN CONSTRUCTION SECTOR, April 2008

Within the same project a document “Compatibility of the legal framework in Montenegro with the international standards in the field of energy efficiency in construction sector” was drawn up. The author of the document is M.A. Vesna Simovic.

PARTICIPATING IN CONDUCTING PRELIMINARY TECHNICAL ASSESSMENTS (PTA) FOR THREE FORTIFICATIONS ON SKADAR LAKE, July-September 2008

In the period July-September 2008 a representative of Expeditio was a member of the expert working group responsible for conducting Preliminary Technical Assessments (PTA) for three fortifications, Lesendro, Besac and Grmožur, on Skadar Lake. The project was conducted within the framework of Component C – Pilot Project for the Local Development of Skadar Lake - of the European Commission/Council of Europe joint Regional Programme for Cultural and Natural Heritage in South East Europe 2003-2010 (RPSEE). In Montenegro the project has been implemented by the Ministry of Culture, Sports and Media.

The Preliminary Technical Assessments for Lesendro, Besac and Grmožur Fortifications were presented on the 4th October 2008 in the National Park Skadar Lake offices on Vranjina, within the manifestation "Fortifications of Skadar Lake – Unknown Heritage" which was organized by the Ministry of Culture, Sports and Media of Montenegro in cooperation with the Pilot Project for the Local Development of Skadar Lake in order to mark the 2008 European Heritage Days.

EXPEDITIO Vas poziva na prezentaciju
Implementacija programa i politika
u oblasti kulturnog nasljeđa koju će održati:
Christina Luke, Univerzitet u Bostonu / Univerzitet u Pensilvaniji
Brian I. Daniels, Smithsonian institut / Univerzitet u Pensilvaniji
Marta Ostovich, Univerzitet u Bostonu

Prezentacije će se održati
 > u Podgorici, u srijedu 15. oktobra 2008. godine u 19:00 h
 u Američkom uglu, KIC "Budo Tomović"
 > u Kotoru, u petak 17. oktobra 2008. godine u 19:00 h
 u skupštinskoj sali Opštine Kotor, palata Bizanti u Starom gradu

Prezentacije se realizuje u okviru programa posjete američkih eksperata iz oblasti kulturnog nasljeđa, koji organizuje nevladina organizacija EXPEDITIO iz Kotora, u saradnji sa Ambasadom Sjedinjenih Američkih Država u Podgorici, u periodu od 13. do 17. oktobra 2008. godine, u okviru Spiker programa Ambasade SAD.

Dobrodošli!

Invitation to presentations held in Podgorica and Kotor

VISIT OF THE AMERICAN CULTURAL HERITAGE SPECIALISTS, October 2008

From 13-17 October 2008, EXPEDITIO organized a program of visit of three cultural heritage expert from the USA, in cooperation with the US Embassy in Podgorica. The visit was realized through the US Embassy Speaker program. The aim of the visit of the American heritage experts to Montenegro was to acquaint Montenegrin cultural heritage stakeholders with the practices of cultural heritage protection and enhancement applied in America, which could be important for enhancing Montenegrin cultural heritage protection system and for encouraging the process of development of an adequate strategy of cultural heritage protection in Montenegro, considering especially the role of heritage as an important factor of development.

SUSTAINABLE BUILDING – BULLETINS, June 2008

Expeditio has continued with the series of bulletins treating the topic of sustainable building. The bulletins were financed within the project "Energy Days in Montenegro", funded by the Regional Environmental Centre for Central and Eastern Europe (REC) www.rec.org, within the SECTOR programme. The project was part of the Sustainable Energy Europe 2005-2008 Campaign that had been launched by the European Commission www.sustenergy.org. The bulletins have been prepared and edited by the architect Nataša Ilinčić, coordinator of the Sector for Sustainable Architecture (OD-DO).

RECONSTRUCTION PROJECT FOR DUKOVIĆ PALACE, November 2008

In October 2008 Expeditio was engaged to design a project for the reconstruction of "Duković" Palace in Herceg Novi. The work was commissioned by the Foundation "Duković".

In 1990, as an illustrative example of the 19th-century profane architecture and because of its cultural and historical values, the Endowment of Aleksandar Duković was registered as a third category cultural monument and recorded in the Central registry of immovable cultural monuments of Montenegro. The project will be finished by the beginning of 2009.

FEASIBILITY STUDIES AND BUSINESS PLANS FOR BUILT HERITAGE

In the framework of the component B of the European Commission/Council of Europe Joint Programme on the Integrated Rehabilitation Project Plan /Survey on the Architectural and Archaeological Heritage (IRPP/ SAAH), feasibility studies and business plans are being prepared for three cultural properties in Montenegro: Kosmač Fortress, Building of the former French Embassy and Fortification Besac. In Montenegro the project is implemented by the Ministry of Culture, Sports and Media. EXPEDITIO is a member of the management group responsible for the preparation of the mentioned documents.

MEMBERSHIP IN THE WORLD HERITAGE COUNCIL, December 2008

The National commission for cooperation with UNESCO has formed a World Heritage Council. A representative of EXPEDITIO is one of the Council's members. The duty of the Council, as a specialized, expert and advisory body of the Commission, is to follow UNESCO's programmes in the respective area and propose activities to the Commission. The World Heritage Council started with its activities at the beginning of December 2008.

ARCHITECTURAL ANALYSIS OF SESTOKRILOVIC PALACE IN PERAST

In the second half of 2008 the owner of Sestokrilovic Palace in Perast commissioned an architectural analysis of the palace to be conducted by Expeditio. The analysis is intended to serve as the basis for the reconstruction project for the palace. Although the palace is one of the most important palaces in Perast it has not been researched so far.

According to an inscription in the roof cornice of the main façade the palace was built in 1691. With its orientation, applied architectural solutions, and treatment of the façade the Place is representative of the baroque style used in residential architecture of Perast and it has exceptionally important cultural, historical, architectural, etc. values.

The architectural researches were carried out in consultations with the Regional institute for heritage protection in Kotor and in line with the guidelines and conservation conditions that they provided.

The first phase of the analysis included: data collection, survey of the existing state and detailed researches based on which the necessary analyses were carried out. The analysis resulted in a report which contains information about: family and family clan Sestokrilovic;; historical development of the palace; description of the palace with all elements characteristic of the of organization of space, interior and exterior; used materials and construction; development and modifications of the palace; comparison with other palaces in Perast; values and importance of the palace, as well as guidelines for

the reconstruction. During this phase, the research works in the interior of the palace were done by a conservation painter from the Regional institute for heritage protection. On some characteristic spots on the walls and the ceiling probes were used in order to establish the original treatment of the walls and the ceiling, their profilation, arrangement of fields, methods of painting, various phases, etc.

The current phase of the project includes the drawing up of the main reconstruction project for the palace.

PARTICIPATION AT THE EXHIBITION IN SWITZERLAND: BALKANOLOGY, October – December 2008

Balkanology: “New Architecture and Urban Phenomena in South Eastern Europe”, was the title of the exhibition opened on 4th October 2008 at the “Swiss Architecture Museum” in Basel, Switzerland. The participants were: Vladimir Kulić & Maroje Mrduljaš (co-curators); Platforma 9,81, Zagreb; Co-PLAN, Tirana; EXPEDITIO, Kotor; Archis Interventions, Prishtina; Katherine Carl & Srdjan Jovanović Weiss, Novi Sad / Philadelphia; Dubravka Sekulić & Ivan Kucina, Belgrade ...

[More about the exhibition](#)

COOPERATION: SOFTWARE FOR RESIDENTIAL ENERGY EFFICIENCY CALCULATION, November 2008

Expeditio is a partner in the project aimed at creating software for residential energy efficiency calculation especially designed for Montenegro climatic conditions. The software is being created within the project “Impact Assessment Housing Energy Efficiency Pilot Programme” carried out by GreenMax Capital Advisors from Warsaw, Poland, under the contract with the European Fund for South-Eastern Europe (EFSE), a fund run within the aid program of the European Commission.

As a partner in the project Expeditio is responsible for providing the data necessary to create the software, such as information about climatic conditions in different parts of Montenegro (set of average heating season air temperature, set of cooling season air temperature, set of insolation data, etc) and description of Montenegro's typical residential building construction containing: walls construction, insulation thickness, type of windows, etc. dependent of the year of construction and building type (multifamily, singlefamily).

MEMBERSHIP IN THE NATIONAL COUNCIL FOR SUSTAINABLE DEVELOPMENT, December 2008

Biljana Gligoric, a representative of Expeditio, has again been appointed a member of the National Council for Sustainable Development. After the Council has been reorganized it will consist of 23 members instead of 45. Besides Expeditio the representatives of the following NGOs have been elected to the Council: “Green Home”, “Healthy Food Production” and “Society of Young Ecologists of Nikšić”.

DATABASE OF CULTURAL MONUMENTS IN KOTOR MUNICIPALITY, August 2008.

The area of the Municipality of Kotor boasts rich cultural heritage. The project “Database of Cultural Monuments of Kotor – an Internet Presentation” aims to launch, through internet as a modern media, an extensive presentation of the cultural heritage of Kotor. The first phase of the project includes the setting up of a bilingual site. In a simple and attractive way, the information about cultural assets of Kotor will be distributed to the broadest public.

The funding, to the amount of 3.275,00 €, was obtained from the Municipality of Kotor, through a Competition for financing the NGO projects in 2008. The project is ongoing.

PARTICIPATING IN PREPARATION OF THE MANAGEMENT PLAN OF CETINJE, December 2008

In November 2008 the process of developing the management plan of Cetinje was initiated by the Ministry of Culture, Sports and Media. A coordinator of EXPEDITIO's Sector for Cultural Heritage is a member of the working group responsible for the preparation of the management plan.

STUDY: STREET FURNITURE AND VISUAL COMMUNICATIONS FOR THE WESTERN SUBURB OF HERCEG NOVI, April 2008

In order to increase the visual harmony of the Old Town ambience, the Agency for the Construction and Development of Herceg Novi commissioned EXPEDITIO to design a study that would propose solutions for street furniture and visual communications for the western suburb area of Herceg Novi. The aim of the study was to make the Old Town ambience more attractive through standardizing the elements of street furniture.

The study offered guidelines for the preferred form and placing of:

- parasols and awnings
- informational and advertising panels and their lighting
- air conditioners
- grilles
- info-tables for cultural monuments

TRAVELOGUES 2008

Thanks to the contribution of our members and friends this year again we have been able to publish e-travelogues on our website.

We extend our cordial thanks to Mr. Dragiša Spremo who contributed four travelogues that have been placed on our website. These are:

- **Jajce – A Royal Town – A LIVING MUSEUM OF OLD BOSNIA**
- **The Renewed Splendor of Antiquity – THE SECOND LIFE OF STOBILJ**
- **Vuk's Tršić and Tronoša monastery**
- **Zvečan – A Town-Fortress**

All the travelogues can be viewed on:

www.expeditio.org

We also thank to Mr. Srdjan Milošević for the travelogues on Brno and Bratislava which can be viewed here: :

Opening of the House of Free Thought

Current appearance

OPENING OF THE HOUSE OF FREE THOUGHT, May 2008

The official opening of the "House of Free Thought" was held in Kavac on 24th May 2008. The house was reconstructed by the NGO Anima with the support of Expeditio. The house is intended for the realization of various programmes for individuals or groups that are interested in alternative interdisciplinary educational programmes, methods of work and education.

The house is a place, primarily for women, but also for men, children, groups of parents, groups of artists and all those who are willing to work on their emotional, psychological and spiritual development regardless their gender, national, religious and political affiliation. Various events take place in the house: seminars, workshops, round table discussions, lectures, film projections, etc.

Publications 2008

DEVELOPMENT OF MAINTENANCE PROGRAMS AND TOOLS FOR HISTORIC BUILDING PRESERVATION, Februar 2008

The publication "Development of Maintenance Programs and Tools for Historic Building Preservation" was issued by EXPEDITIO and Cultural Heritage without Borders (CHwB). The publication is the result of a regional seminar/workshop of the same name, which was held in Kotor at the end of May 2007. The publication is bilingual.

The publication can be downloaded [here](#)

PALACES OF BOKA KOTORSKA, May 2008

The publication presents all the palaces and other representative houses in the Boka Kotorska, which can be used to draw up an interesting cultural itinerary of Montenegro. In the area of Boka Kotorska there is a large number of palaces and other representative houses which have distinctive cultural-historical, artistic and architectural values. These representative houses are the best evidence of social, economic and cultural development and they offer an insight into the way of life of the whole area of Boka Kotorska. We are preparing the English edition of the publication.

Publications 2009

PALACES OF BOKA KOTORSKA English edition of the publication

At the Republic competition for funding NGO projects for 2008 Expeditio was awarded 1,500.00 € for the English edition of the publication "Palaces of Boka Kotorska". The publication is in preparation.

PUBLICATION ON KOSTANJICA SETTLEMENT

EXPEDITIO is preparing a new publication titled "Kostanjica – Promoting Landscapes (Natural and Cultural Heritage) of Boka Kotrska". Part of the needed funds, to the amount of 1.500 €, was obtained from the Ministry of Tourism and Environmental protection at the Competition for financing the NGO projects in 2008.

MEDIEVAL TOWNS OF MONTENEGRO English edition of the publication

EXPEDITIO is preparing the English edition of the publication "Medieval Towns of Montenegro". The publication is based on the book by Professors Pavle Mijovic and Mirko Kovacevic "Medieval Towns and Fortifications in Montenegro".

Part of the needed funds, to the amount of 1.500 €, was obtained from the Ministry of Culture, Sports and Media of Montenegro at the competition for co-financing projects and programmes in the field of cultural-artistic work in 2008.

REACTIONS REGARDING THE ADOPTION OF THE SPATIAL PLAN OF MONTENEGRO, January 2008

During 2007 and 2008 Expeditio and other non-governmental organizations repeatedly expressed their critical reactions regarding the process of drawing up, contents and quality of the Spatial Plan of Montenegro as one of the most important documents for the development of Montenegro.

The Spatial Plan was nevertheless adopted despite the negative reactions of non-governmental sector and international organizations regarding the quality of this document.

More about this topic can be found in an interview with Biljana Gligoric which was published on 12th January 2008 in "ART", supplement of the independent daily newspaper "Vijesti".

NGOs representatives at the press conference regarding the adoption of the Spatial Plan of Montenegro

LETTER TO UNESCO: CULTURAL LANDSCAPE DEVASTATION IN LIPCI, August 2008

Non-governmental organizations EXPEDITIO and MANS sent a letter to UNESCO in reference with the interventions in the settlement of Lipci situated in the Bay of Boka Kotorska. We thought it very important to inform UNESCO considering that these interventions cause serious devastation of the cultural landscape within the area inscribed on UNESCO's World Heritage List.

The letter was sent to the UNESCO World Heritage Centre in Paris and UNESCO Office in Venice. The letter was also forwarded to Europa Nostra, the pan-European Federation for Cultural Heritage.

The letter can be downloaded [here](#)

Landscape devastation in Lipci

COMMENTS TO THE STRATEGIC ENVIRONMENTAL ASSESSMENT REPORT ON VRMAC, December 2008

In the framework of the public hearing about the Strategic Environmental Assessment of the Local study for the locality Vrmac, non-governmental organizations:

- Kamelija – Stoliv, Stoliv
- European Home – Tivat, Tivat
- Expeditio, Centre for Sustainable Spatial Development, Kotor

issued joint comments to the Report on Strategic Environmental Assessment of the Local study for the locality Vrmac. The comments were submitted to the Municipality of Kotor and the municipal Department for Urbanism, Construction and Housing.

Plans 2009

EXPEDITIO

APPROVED A PROJECT FOR THE GENERAL CAPACITY DEVELOPMENT, December 2008

In the middle of December Expeditio was approved a three-year grant as a contribution to general support and capacity development. The grant will also be used for our further active contribution to implementing the Strategy of Sustainable Development of Montenegro.

The main goals of the project are:

- to establish more efficient human resources management through creating a database of our collaborators, analyzing the database and proposing concrete future activities and launching an interactive open source web portal (web 2.0 internet) in order to create an active network which will include people who want to cooperate with us
- to achieve a long-term sustainability of Expeditio, through drawing up a professional business plan of the organization and educating our staff and collaborators
- to develop and enhance our program activities, through conducting activities in three most important sectors of the organization: Sustainable Architecture, Spatial Planning and Cultural Heritage and through drawing up a strategic plan of EXPEDITIO for the period 2009-2014
- to maintain visibility of the organization among both wider and expert public, through producing PR material and annual reports for 2008 and 2009.

The donor of the project: Rockefeller Brothers Fund
The duration of the project: 3 years
Approved funds: 105.000 \$

BEGINNING OF A NEW PROJECT: DEVELOPMENT OF THE SEE HERITAGE NETWORK, December 2008

A general aim of the project is to strengthen the capacity of the SEE Heritage Network through defining the Network in legal and organizational terms, enhancing its visibility and influence and creating foundations for its sustainability, and turn it into a sustainable network - more stabile and more active in its field of interest in the South East European region and even wider.

The goals of the project are:

- To define the Network in legal and organizational terms - to register the SEE Heritage network formally and to enhance its internal organization
- To enhance visibility and influence of the SEE Heritage network in the SEE region through improving its internet presentation, mailing list, producing PR material and promoting the Network and the site
- To create foundations for the SEE Heritage network sustainability through maintaing a Database of the Network members and Network's Archive and employing a secretary of the Network who will take over coordination of the Network .

The donor of the project: Cultural Heritage without Borders (CHwB)
The duration of the project: 12 months
Approved funds: 24,940.00 €

A NEW PROJECT APPROVED: ENHANCING PUBLIC SPACES IN CETINJE, December 2008

In December 2008 Expeditio was approved a grant to conduct a project "Enhancing public spaces in Cetinje by adding new artistic elements". A general aim of the project is to enhance public spaces in Cetinje by adding new elements/street furniture or events that have artistic character.

The aims of the project are:

- To find adequate public space/s suitable for concrete interventions, to select an adequate method of work with the stakeholders in order to come to the most creative solutions for the interventions, group work in order to present in the best way the selected artistic interventions in space
- To conduct, through participatory planning and decision-making of all stakeholders, concrete intervention/s in one of the public spaces in order to give the space new contents.

The donor of the project: UNDP
The duration of the project: 6 months
Approved funds: 11,740.00 €

PARTNERS NEEDED FOR IPA PROJECTS OF CROSS-BORDER COOPERATION BETWEEN MONTENEGRO, BOSNIA-HERZEGOVINA

At the beginning of 2009 a call will be launched for proposals focusing on cross-border cooperation between the countries of the region. If you are active in the fields of energy efficiency in construction or cultural heritage or if you have contacts with organizations and institutions that might be interested in implementing projects in the mentioned fields please contact us because we are seeking potential partners for our future projects. Thank you.
